SUMMARY

Full stack developer with 4 years building production web applications, from database to deployment, with a back-end focus on Node.js and TypeScript. I currently build an online auction platform end to end (Meteor, React, MongoDB). Experienced with REST APIs, SQL and NoSQL databases, Docker and CI/CD, and I use AI daily (Claude Code and the Anthropic API) to speed up development and code review. Objective and pragmatic: I understand the problem, ship what solves it and communicate clearly.

SKILLS

Languages: TypeScript, JavaScript, SQL, Python, Java
Back-end: Node.js, Express, Meteor (reactive pub/sub), REST APIs, JWT/bcrypt auth, SOLID
Databases: MongoDB, MySQL, PostgreSQL
DevOps: Docker, Docker Compose, CI/CD, Git, Railway
Front-end: React, Tailwind CSS, Mantine, PWA, HTML/CSS
Testing & AI: Jest, Claude Code, Anthropic API

EXPERIENCE

Full Stack Developer — Leilões Brasil Cassiano — Sep 2023 – Present · Uberlândia, Brazil

- Build and maintain an online auction platform end to end: back end, front end, internal CRM and documentation.
- Back end in TypeScript with Meteor (Node.js), using reactive publications (pub/sub) to update data on screen without reloads.
- Designed and built the MongoDB data model. Front end in React and Tailwind CSS.
- Use Claude Code daily for development, debugging and code review.

Full Stack Developer — Eletrônicos Inova — Oct 2022 – Feb 2025 · Remote · Freelance

- Built the back end, front end and hosting infrastructure of a sales and inventory system for an electronics retailer.
- REST API in Node.js/Express with TypeScript and JWT/bcrypt auth; relational data model in MySQL; deployed on Railway.
- React front end (PWA): customer and product management, consignments, stock reconciliation, label printing and a field-sales module.

Systems Analyst Intern — Kyros Tecnologia — Nov 2011 – Nov 2013 · Uberlândia, Brazil

- Java software development on an outsourcing team serving the company's clients; SQL queries and database maintenance.

Data Analysis Intern — Federal University of Uberlândia (DIRPD) — Aug 2008 – Nov 2009 · Uberlândia, Brazil

- Maintained and generated SQL reports.

EDUCATION

- **Full Stack Web Development** — Trybe (bootcamp) · completed Nov 2022
- **B.Sc. in Computer Science** (incomplete) — Federal University of Uberlândia · 2006–2010
